

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The Browne & Nichols School for Boys,

7 Garden St. and 9 Appian Way, Cambridge, Mass.

THE SCHOOL receives boys not younger than nine in the grammar grade, and offers them the advantage of a continuous course of eight years under the same instructors. French is begun at once; Latin, in the second year; Algebra or Constructional Geometry is introduced in the grammar grade. In the Science teaching, which begins with the youngest boys, advantage is taken of the many valuable collections at Harvard, while much assistance is gained from frequent excursions into the country.

The school house was built last year under the supervision of the principals, to meet the wants suggested by eleven years of experience in teaching. The utmost care was taken to secure the most approved ventilation and abundance of light, and to provide facilities for the best work in each department. The building is equipped with Chemical and Physical Laboratories and a Conservatory. There are new baths, hot and cold, for the Gymnasium.

Preparation is afforded for College or Scientific School by any of the various methods.

The 13th year of the School begins September 26th, 1895.

A home for seven boys, under the control of the principals, at No. 8 Garden St., opposite the Common, in one of the most healthful and attractive parts of Cambridge.

EDITOR'S PREFACE.

THE primary purpose of this Handbook of Graduate Courses is to furnish in compact form accurate information that will be sought for by advanced students. If that result is attained, the Handbook justifies its existence. Such students will consult it to learn what institutions and what professors offer courses in the subjects they wish to pursue; what has been the academic career of those professors; what amount of time is asked for each course; what numbers of Graduate Students have been registered in the specified departments; what fees are required of Graduate Students; what Fellowships, Scholarships, and other pecuniary aids are open to them; what requirements for admission to advanced courses and for advanced degrees are imposed, etc., etc.

It is hoped that officers of administration and instruction,—in fact, all persons interested in the development of graduate study in America — will also find its pages interesting and valuable.

The reader is asked to bear in mind that the editors have not sought to include all Graduate Courses offered in America, nor attempted to give details as to the courses herein presented. In the first place, the intention has been to omit all purely professional work. In the next place, the Handbook has been and is a growth. The edition of 1893 included eleven institutions, while this includes twenty-one, and future issues may be gradually enlarged in scope. For all details the reader is referred to the full announcements published by the several colleges and universities and freely sent to all applicants.¹

¹ The introductory sketches in the following pages give the names and addresses of the officers to be addressed for further information.

The sketch of the proceedings of the "Convention of Graduate Students" on a subsequent page sufficiently explains the present status of the Handbook.

Dealing with so many technical and complicated matters, and prepared in very great haste in order that it might appear in time to be useful to intending students, such a compilation cannot be expected to be free from errors. As to many points, repeated inquiries have failed to elicit desired information. The Editor regrets that the tardiness of four or five universities in furnishing copy has delayed the publication of the Handbook beyond the announced date, and has also made it impossible to secure the desired degree of careful revision by Assistant Editors.

Criticisms and suggestions looking to the future improvement of the Handbook are invited, and may be addressed to C. A. Duniway, Editor-in-Chief, Cambridge, Mass.

THE GRADUATE CLUBS.

Several Graduate Clubs have been organized during 1894-5. It has come to be generally recognized that a Graduate Club is of very great value in any university doing graduate work, giving, as it does, a common social center for the advanced students in all lines of work, and affording a pleasant means of personal contact between students and professors. The Convention held in New York City last April was an evidence of the active spirit of coöperation subsisting between the several Clubs. The length of the list of officers here presented shows the great growth of Graduate Clubs since the organization of the first one (at Harvard) in 1889.

Convention of Graduate Students.

ADDRESS TO GOVERNING BOARDS OF AMERICAN UNIVERSITIES.

ON the initiative of the Harvard Graduate Club, graduate students, representatives from the nineteen colleges and universities whose courses appeared in the Handbook of Graduate Courses for 1894-5, were invited to come together in New York City on April 16th last. The Convention which met on that date was composed of twenty-two delegates representing sixteen colleges and universities.

The general purposes of the Convention were these: (1) To establish the Handbook of Graduate Courses upon a more satisfactory basis and to obtain a more general coöperation in its editorial management. (2) To consider conditions of graduate study in America, particularly the subjects of intermigration and maintenance of standards for degrees. (3) In general, to advance the interests of higher education by bringing together graduate students from all parts of the country for discussion of topics of common interest.

The first work of the Convention was to recommend the continued issue of the Handbook of Graduate Courses and to formulate a plan for its publication. In accordance with that plan an Editor-in-Chief was immediately elected. Each contributing college and university was asked to designate a resident graduate student to prepare its matter for the Handbook and to be the representative of the institution on the Board of Assistant Editors. Control

of the Handbook was vested in the Editor-in-Chief and this Editorial Board.

The second session of the Convention was occupied by discussions upon (1) intermigration of graduate students; (2) maintenance of standards for advanced degrees. A striking unanimity of opinion upon both these matters was developed during the proceedings. In the belief that well-considered expressions of opinion from a representative gathering of graduate students would prove useful in advancing the interests of graduate study in America, the Convention adopted a series of resolutions and embodied them in the following:

ADDRESS TO GOVERNING BOARDS OF AMERICAN UNIVERSITIES.

A Convention of Graduate Students,¹ representatives of Barnard, Brown, Bryn Mawr, Chicago, Columbia, Cornell, Harvard, Johns Hopkins, Michigan, Pennsylvania, Radcliffe, Vanderbilt, Western Reserve, and Yale, held at New York City on April 16th, 1895, adopted the following series of resolutions, which they wish to submit to Boards of Trustees, to Faculties, and to the University public:

1. That only those who have obtained a bachelor's degree from some reputable college, or who furnish proofs of fully equivalent attainments, should be eligible as candidates for the degree of Doctor of Philosophy.
2. That the degree of Doctor of Philosophy should be granted only after the completion and publication of a thesis embodying results of original investigation.
3. That regulations should be modified to facilitate the intermigration of Graduate Students, and that accordingly not more than one year of residence should be required in the university where the degree of Doctor of Philosophy is conferred.
4. That the giving of the degrees of Master of Arts, Doctor of Philosophy, Doctor of Science, Doctor of Letters, *honoris causa*, is to be condemned, and that the granting of these degrees *in absentia* is very much to be deprecated.

¹ California, Minnesota, Stanford, and Wisconsin, although sympathizing with the purposes for which the Convention was called, did not send delegates. Clark and Princeton, being represented only by members of their Faculties, did not join in the adoption of these resolutions.

INTRODUCTION.

BARNARD COLLEGE.

Barnard College duplicates for women the undergraduate course of Columbia and registers graduate students for work under the University Faculties. All degrees are conferred by Columbia. Students have full privileges in the University Library. Seniors and graduate students attend lectures at Columbia under the Faculty of Philosophy. Graduate instruction under the Faculties of Political Science and Pure Science is given at Barnard. All general academic statements made by Columbia apply equally to Barnard. EMILY JAMES SMITH, Dean. Address Mrs. N. W. LIGGETT, Registrar, New York City.

BROWN UNIVERSITY.

The University was founded by the Philadelphia Baptist Association in 1764, the first Commencement being held in September, 1769. For the year ending April 15th, 1894, the endowment yielding interest was \$1,089, 118.66. The income for current expenses, exclusive of special funds, etc., was \$115,957.72. Degrees were first granted to graduates from the Graduate Department in 1889. The advanced degrees of Master of Arts and Doctor of Philosophy are conferred. By a graduate course is meant one primarily intended for those who have already attained one of the academic degrees. Women are admitted on the same terms with men; but undergraduates are instructed in separate classes.

The year begins on the third Wednesday in September, is divided into three terms, and ends the third Wednesday in June. E. BENJAMIN ANDREWS, President. Address FREDERICK T. GUILD, Registrar and Secretary of the Faculty, Providence, R. I.

BRYN MAWR COLLEGE.

Founded in 1880 with the endowment of Dr. Joseph W. Taylor, the College opened in the fall of 1885. The realized endowment, outside of buildings and grounds, is about \$1,000,000. The College is an "institution for the advanced education of women." It admits these classes of students: graduates, undergraduates, specials, and hearers. Special students must have passed the examination for matriculation. Hearers attend courses on the consent of the several instructors and receive certificates from them only. The Graduate Department was organized in 1885. Degrees of Master of Arts and Doctor of Philosophy are granted. A graduate course is one which presupposes a minor, major and post major undergraduate course (*i. e.*, three years of undergraduate instruction), and to which only students that have the A. B. degree, or its full equivalent, are admitted.

The year is divided into semesters. For 1895-6 the first begins on October 1st, and the second on February 10th. M. CAREY THOMAS, President. Address MADELINE VAUGHAN ABBOTT, Secretary, Bryn Mawr, Pa.

UNIVERSITY OF CALIFORNIA.

Founded by an Act of the Legislature in 1868. The University is a State institution, having an income of about \$300,000. Graduate instruction has been carried on since

1874. The following advanced degrees are granted: Master of Arts, Master of Letters, Master of Science, Doctor of Philosophy. Graduate courses are devoted entirely to advanced work. They presuppose a full undergraduate training, and are chiefly intended to develop professional scholars and specialists who shall be able to carry on original research. Women are admitted on equal terms with men.

The year is divided into two terms. For 1895-6 the terms extend from August 12th to December 21st, and from January 11th to May 16th. MARTIN KELLOGG, President. Address JAMES SUTTON, Recorder of the Faculties, Berkeley, Cal.

UNIVERSITY OF CHICAGO.

Founded by John D. Rockefeller in 1890, the University was opened October 1st, 1892. The realized endowment at the end of the last fiscal year was \$2,900,000. The income was \$370,000. Assets of the University, including funds subscribed and those now in hand, exceed \$7,000,000. The Graduate School was organized in 1892. The degrees of Master of Arts, Master of Science, Doctor of Philosophy, and Doctor of Science, are granted, and may be conferred at the end of any quarter. No definition of a graduate course is given. Most advanced courses are open to suitably prepared juniors and seniors, as well as to graduates. Women are admitted on the same terms with men.

The year is divided into quarters beginning on the 1st of July, October, January, and April. WILLIAM R. HARPER, President. Address THE UNIVERSITY EXAMINER. Chicago, Illinois.

CLARK UNIVERSITY.

Founded in 1887 by Jonas G. Clark, the University was opened in October of 1889. It admits only graduate students, and confers only one degree, that of Doctor of Philosophy. Its courses presuppose a knowledge of what is usually required by the best colleges in each department as a condition of the degree of A.B. Women are not admitted.

The year begins October 1st. G. STANLEY HALL, President. Address LOUIS N. WILSON, Clerk, Worcester, Mass.

COLUMBIA COLLEGE.

Founded in 1754 by a charter from George II, and originally called "Kings College." The receipts for the last fiscal year were \$747,635, expenditures \$717,937. Reorganized in 1890 after the pattern of the German Universities. Five University Faculties were formed, including those of the School of Political Science and the School of Philosophy, to which has since been added the School of Pure Science. Degrees of Master of Arts and Doctor of Philosophy are granted. A graduate course is any course offered by the University Faculties of Political Science, of Philosophy, and of Pure Science, to students who have the A. B. degree or its equivalent. Most of these courses, however, are open to properly qualified seniors of the School of Arts. Women, by matriculating at Barnard College, may enjoy practically all the advantages of Columbia.

The year is divided into two terms. For 1895-6 these begin October 1st and February 10th. SETH LOW, President. Address THE SECRETARY OF THE PRESIDENT, New York City.

CORNELL UNIVERSITY.

Founded in 1865, and endowed with New York's apportionment of public lands under the Morrill Land Grant Act, in addition to large gifts from Ezra Cornell, the University was opened in 1868. For the year ending August 1st, 1894, the endowment was \$8,804,712.72 and the income \$608,291.11. Graduate instruction has been given since 1868, the first advanced degree being conferred in 1870. There is no separately organized Graduate Department, the work being in charge of a Faculty Committee on Graduate Work. Degrees of Master of Arts, Master of Philosophy, Master of Letters, Master of Science, Doctor of Philosophy, and Doctor of Science, are conferred. Cornell does not define a graduate course. Most of the elective courses are open to both graduates and undergraduates. Women are admitted on the same terms with men.

The year is divided into three terms. For 1895-6 it begins September 23d. JACOB GOULD SCHURMAN, President. Address D. F. Hoy, Registrar, Ithaca, N. Y.

HARVARD UNIVERSITY.

Founded in 1636 by the vote of the General Court of Massachusetts. The realized endowment at the close of the fiscal year 1893-4 was \$8,367,268.72. Income was \$1,054,484.17. The Graduate Department was organized in 1872. The degrees of Bachelor of Arts, Master of Arts, Doctor of Philosophy, and Doctor of Science, are open to such students in the Graduate School as have been accepted

as qualified for candidacy. The Faculty of Arts and Sciences distributes its courses into three groups, those intended primarily for Undergraduates, those for Graduates and Undergraduates, and those primarily for Graduates. The courses in the middle group are largely recommended to Graduate Students. The policy of the University is to draw no hard and fast lines between the groups, but to admit into any course students qualified to pursue it, irrespective of their academic standing. Women are not admitted; but many courses are open to Radcliffe Graduate Students.

The year is divided into two half-years. For 1895-6 these begin September 26th and February 10th. CHARLES WILLIAM ELIOT, President. Address RICHARD COBB, Asst. Secretary, Cambridge, Mass.

JOHNS HOPKINS UNIVERSITY.

Founded in 1867, through the munificence of Johns Hopkins, lectures being first delivered in 1876. Expenditures in 1890-1 were about \$170,000. University instruction is offered to advanced and graduate students whether candidates for a degree or not. The only advanced degree conferred is Doctor of Philosophy. The aim of graduate courses is "that while a student is becoming familiar with the work prosecuted and the results obtained elsewhere, and is adding to his general culture, he may be encouraged to become himself an independent and original investigator in his chosen field of labor." While the University does not exclude women, the number in attendance has been small.

The year is divided into two terms, beginning in October and February. D. C. GILMAN, President. Address T. R. BALL, Registrar, Baltimore, Md.

LELAND STANFORD JUNIOR UNIVERSITY.

Founded in 1885 by Hon. Leland Stanford and Mrs. Jane L. Stanford, the University was first opened to students in October, 1891. Income of the last fiscal year was about \$200,000. The advanced degrees of Master of Arts, Master of Science, Doctor of Philosophy, Doctor of Science, are conferred. A graduate course is work accepted for an advanced degree in the department offering the course. Women are admitted to all courses on the same footing with men.

The year is divided into two semesters, beginning early in September and January. DAVID STARR JORDAN, President. Address O. L. ELLIOTT, Registrar, Stanford Univ., California.

UNIVERSITY OF MICHIGAN.

Founded in 1837, by an Act of the Legislature of Michigan, as a part of the public instruction, the first of its Departments was opened in 1841. Its endowment is \$540,000. The income of the last fiscal year was \$445,272.46. The Graduate School was organized in 1892. The degrees of Master of Arts, Master of Science, Master of Philosophy, Master of Letters, Doctor of Philosophy, Doctor of Science, and Doctor of Letters, are conferred. No definition of a graduate course is given, but no elementary work in any subject is allowed to count as graduate work. Women are admitted on the same terms with men.

The year is divided into two semesters, beginning about October 1st and February 15th. JAMES B. ANGELL, President. Address PROF. P. R. DEPONT, Registrar, Ann Arbor, Michigan.

UNIVERSITY OF MINNESOTA.

Originally organized by an act of the Territorial Legislature in 1851, the University was made the "State University" in 1857. It was reorganized in 1864, 1868, and 1872. Instruction in the college classes was first given in September, 1868. The annual income is about \$225,000. The Graduate Department was organized in 1895-6. The following advanced degrees are conferred: Master of Arts, Master of Science, Master of Literature, and Doctor of Philosophy. By a graduate course is understood a continuous systematic pursuit of some topic not offered to undergraduates and of a more advanced character than work required for a bachelor's degree. Women are admitted on the same terms with men.

The year is divided into three terms. For 1895-6 these begin September 10th, December 3d, and March 9th. CYRUS NORTHROP, President. Address JABEZ BROOKS, Minneapolis, Minn.

UNIVERSITY OF THE CITY OF NEW YORK.

Founded in 1831, instruction being begun in 1832. The endowment at the end of the last fiscal year was \$2,600,000. The income was \$135,000. The Graduate Seminary was organized in 1886. Degrees of Master of Arts, Master of Philosophy, Master of Science, Doctor of Philosophy, and Doctor of Science are conferred. By a graduate course the University means specialized work by a graduate student under the direction of a professor in such amount as may fitly occupy about one half of the student's time for an academic year. Women are admitted to the classes of the Graduate Seminary on the same terms with men.

The year consists of eight months of work, with no intermission, and begins October 1st. HENRY M. MACCRACKEN, Chancellor. Address THE REGISTRAR, Washington Sq., New York City.

UNIVERSITY OF PENNSYLVANIA.

Founded as the Charitable School in 1740, and becoming the "College and Academy of Philadelphia" in 1751, it was amalgamated with the University of the State of Pennsylvania under its present title in 1791. The Graduate Department (under the title "Department of Philosophy") was organized November 17th, 1885. The degrees of Master of Arts, Master of Science, and Doctor of Philosophy, are conferred. Courses in the Department of Philosophy are entirely distinct from the undergraduate work, and are such as are not represented at all in the undergraduate work. The Graduate Department for Women is an integral part of the Department of Philosophy. The courses are given by the same instructors and lead to the same degrees. Admission is on the same terms as for men.

The year is divided into two terms. For the Department of Philosophy these begin in October and February. CHARLES C. HARRISON, Acting Provost. Address WILLIAM A. LAMBERTON, Dean of the Department of Philosophy, Philadelphia, Pa.

PRINCETON.

COLLEGE OF NEW JERSEY.

Founded in 1746. A second and more ample charter was obtained in 1748, and this was confirmed and renewed after the Revolution. Every instructor in the College may, with

the consent of the Faculty, give instruction to graduates. The degrees of Master of Arts, Master of Science, Doctor of Philosophy, Doctor of Science, and Bachelor of Divinity are conferred. In addition to the courses open to graduates only, many of the courses of the Senior year and some of those of the Junior year are also open to them. These are not courses which are given for their disciplinary value, nor are they usually courses in which a subject is begun. They may be offered by a candidate for the degree of Master of Arts or Master of Science. Women are not admitted.

The year is divided into two terms. For 1895-6 these begin September 18th and February 6th. FRANCIS LANDEY PATTON, President. Address PROF. W. F. MAGIE, Princeton, N. J.

RADCLIFFE COLLEGE.

Radcliffe College, the successor of the Society for the Collegiate Instruction of Women, offers systematic collegiate instruction to women under the professors and other teachers of Harvard University. The requirements for admission are identical with those for admission to Harvard College. The courses of instruction given in Radcliffe College correspond to both undergraduate and graduate courses offered by Harvard University; and are more than sufficient to enable a woman to perform the work required by the University for the degrees of Bachelor of Arts and Master of Arts. In addition to these, graduate students in Radcliffe College now have access to fifty-four graduate courses in Harvard University. The examinations are the same in both institutions, and the diplomas conferring the degrees of A. B. and A. M. are countersigned by the President of Harvard University as a guarantee that these degrees are equivalent to the corresponding degrees given by the University.

The arrangement of the academic calendar corresponds to that of Harvard. AGNES E. IRWIN, Dean. Address MARY E. COES, Secretary, Cambridge, Mass.

VANDERBILT UNIVERSITY.

Founded in 1873 by the munificence of Cornelius Vanderbilt. The endowment at the end of the last fiscal year was \$900,000. Income was \$63,000. Graduate work has been carried on from the beginning. Degrees of Master of Arts, Master of Science, Doctor of Philosophy, and Doctor of Science are conferred. Any course is considered as graduate work which extends beyond the requirements for a bachelor's degree, and which can be counted on higher degrees. All advanced courses are open also to suitably prepared undergraduates. Women are admitted "students by courtesy." They are not formally matriculated but are recommended for degrees by the Faculty, on completion of course.

The session begins on September 18th, and ends June 17th. J. H. KIRKLAND, Chancellor. Address WILS WILIAMS, Secretary, Nashville, Tenn.

WESTERN RESERVE UNIVERSITY.

Founded in 1826 as Western Reserve College. The interest bearing funds are over \$1,000,000, its property being valued at \$2,200,000. In 1894-5 receipts from funds were \$100,000. The Graduate School was established in 1892. Degrees of Master of Arts and Doctor of Philosophy are conferred. All courses open to Graduate Students are considered graduate courses, but starred courses are

open to them only as minors. The College for Women is a Department of the University, and women are admitted to the Graduate School on the same terms with men.

The year is divided into two terms, of which the first will begin September 19th, 1895, and the second February 10th, 1896. CHARLES F. THWING, President. Address R. W. DEERING, Dean of Graduate School, Cleveland, O.

UNIVERSITY OF WISCONSIN.

Founded by the State in 1849 and reorganized in 1866. The expenditures for 1893-4 were \$393,734.60. Income for 1894-5 is \$364,759. The Graduate Department, which had hitherto consisted mainly of advanced courses given in connection with the various schools, was separately organized in 1895. The degrees of Master of Arts, Master of Letters, Master of Science, and Doctor of Philosophy are conferred. Graduate courses are especially intended to encourage research and graduate instruction in the several departments presupposes generally the full undergraduate courses—required and elective—in such departments. Women are admitted on the same terms with men.

The year is divided into semesters. For 1895-6 these begin September 26th and February 10th. CHARLES KENDALL ADAMS, President. Address W. G. Hiestand, Registrar, Madison, Wis.

YALE UNIVERSITY.

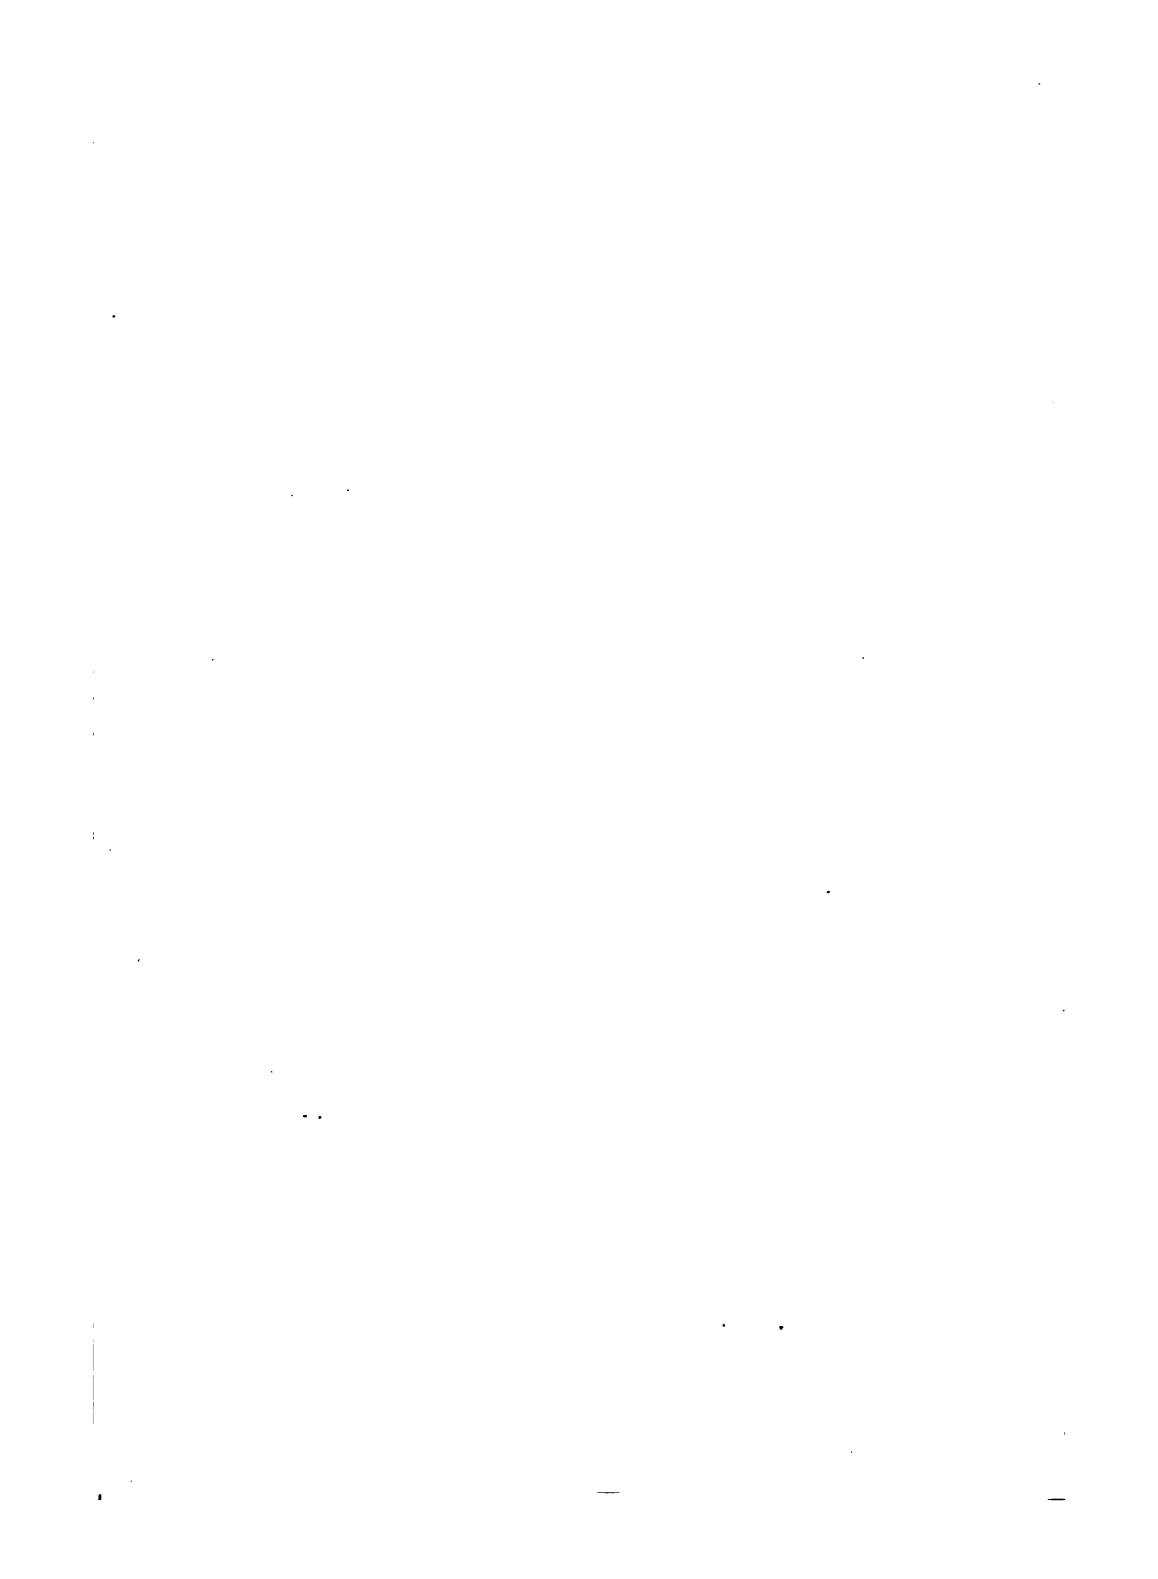

Founded in 1701 by a charter from the General Court of Connecticut, which endowed the college with an annual grant. Funds, exclusive of grounds, buildings and collec-

tions, in 1893 amounted to more than \$4,000,000. Expenditures in 1892-3 were over \$650,000. Graduate instruction was definitely organized in 1847. The advanced degrees of Master of Arts and Doctor of Philosophy are conferred. A graduate course is one of a character sufficiently advanced to entitle it to be credited in work for the degree of Doctor of Philosophy. Women are admitted on the same terms with men to courses leading to the Doctors' degree.

The year is divided into two terms. For 1895-6 these begin September 26th and January 7th. TIMOTHY DWIGHT, President. Address ANDREW W. PHILLIPS, Dean of Graduate Department, New Haven, Conn.

COURSES FOR WOMEN.

The provision for the advanced instruction of women made by the institutions included in this handbook is sufficiently indicated in the foregoing paragraphs; but it is worthy of remark that Clark and Princeton are the only universities of the number which give no instruction whatever to women.

EXPLANATORY.

The plan of these lists of Graduate Courses was: (1) to use convenient general titles for grouping courses on related subjects; (2) to mention special facilities in each department of the several institutions, with the fellowships and scholarships open to graduate students; (3) to state the numbers of graduate students who took courses in each department during 1894-5; (4) to present brief statements of the collegiate experience of instructors, with some of the subjects on which they have published; (5) to give all the advanced courses definitely offered by each instructor, using short titles, and indicating the amount of time required for each course; (6) to enclose in brackets all courses not to be given in 1895-6; (7) to mark with the asterisk courses open also to undergraduates; (8) to bring all the work of each instructor into a form for ready reference by an index of names.

Difficulties of classification have been met (to some degree at least) by the cross references under many department headings. The omission of biographical facts (*e.g.*, in the English Department of Harvard), and of notes on special facilities, has been by request in some cases; in others, it has been due to the very great difficulty of getting information within a limited time.

The figures of the numbers of graduate students in the several departments may be misleading if not properly interpreted. A graduate student may have taken courses in two or more departments — such student counts once in each of those departments. Except in the case of Columbia (and in certain cases for Yale and Vanderbilt, noted in Addenda), the absence of figures means there were no graduate students during 1894-5 in a particular group of courses. Some Assistant Editors found much trouble in getting the registration in the form demanded by the Handbook, and at Columbia the figures were not obtained at all.

A similar caution must be given as to the interpretation of the asterisk. Assistant Editors were asked to mark with the asterisk "courses open also to undergraduates." The responses disclosed almost irreconcilable differences of usage. "Graduate work" in each institution is conditioned by local plans of administration, as well as by the previous preparation of graduate students. Yet on the whole it has seemed best to retain the asterisk, even at the risk of suggesting unjustified comparisons, for the purpose of making clear to graduate students that certain courses are not designed primarily for them.

Following the brief title of a course are usually the number of hours per week (in small Roman) and number of weeks of appointment with instructor (in

numerals). One or more dashes, with a mark of interrogation, call attention to absence of this information. Unless months are given, a course usually extends from September or October to May or June (inclusive).

Bracketed courses, not given in 1895-6, usually may be expected in 1896-7.

The abbreviations for the names of the months are as follows: Ja., F., Mar., Ap., My., Jun., Jul., Au., S., O., N., D.

ADDENDA.

NUMBERS OF GRADUATE STUDENTS.

Chicago had, in 1894-5, 13 Graduate Students who took courses in Semitic; 3 in Biblical Greek; 21 in Sanskrit; 61 in Greek; 78 in Latin; 91 in English.

Vanderbilt had, in 1894-5, 2 Graduate Students who took courses in Semitic Languages and Literatures.

Yale had, in 1894-5, 5 Graduate Students who took courses in Semitic Languages and Literatures; 3 in Indo-Iranian Languages and Literatures; 16 in Classic Languages and Literatures; 14 in English Language and Literature.

OTHER LATE INFORMATION.

Edwin V. Morgan, A.M., Harvard, '91, will give the courses in History at Western Reserve, not assigned to an instructor. See page 65.

Astronom. Obs., founded for scientific research, equipped with instruments of the first class, a library of over 14,000 works, and has funds for maintenance, increase, and publication. In the Henry Draper memorial dept. an extensive study of spectra and other phys. props. of stars is carried on. Boyden fund sustains observations at great elevation. Photographic study of stars especially provided for. Facilities freely offered to astronomers; also sometimes to special students in astron., who should apply to E. C. Pickering, Director.

JOHNS HOPKINS.

16 Graduate Students, 1894-5.

The Department is conducted on plans outlined by Prof. Simon Newcomb, who acts as general adviser. Equipment consists of an equatorial telescope of 9½ inches aperture, a meridian circle of 3 in. aperture with circles 2 ft. in diam. reading to seconds, a small meridian transit instrument, and several others.

THE FUNK & WAGNALLS
Standard Dictionary
Of the English Language

IS COMPLETE: Contains 301,865 vocabulary terms, nearly 2½ times the number in any single-volume or two-volume dictionary.

The New York Herald says: "We are free to pronounce it the *most complete* and satisfactory Dictionary yet printed."

HIGHEST AUTHORITY: 247 Specialists and 500 Readers for Quotations were engaged in compiling the work of 2338 pages, at a cost of over \$960,000.

Edmund C. Stedman: "It is the most inclusive and scholarly of recent English dictionaries in not more than two volumes."

Nature, London, England, J. NORMAN LOCKYER, Editor: "It passes the wit of man to suggest anything which ought to have been done which has not been done to make the Dictionary a success."

INTRODUCTORY PRICES, \$12.00 TO \$22.00. SOLD BY SUBSCRIPTION.

(ADVANCED COURSE)

COMMENTS.

"G. R. Carpenter, Professor of Rhetoric and English Composition in Columbia College, has prepared a work under the title of 'Exercises in Rhetoric and English Composition,' in which not so much the science of rhetoric is mapped out and defined as the practical workings of the art are furnished to the student with just enough of the principles to guide him aright. The author gives an abundance of exercises for the student to study and analyze, and this is the very best kind of help. The scheme of the subject-matter is somewhat unique and novel, but it is comprehensive and lucid. The book is almost exclusively confined to consideration of the elements of style,— words, sentences, paragraphs, whole compositions. Other than students in college will find this a very serviceable and suggestive book to read and consult."—*Education*.

(THE HIGH-SCHOOL COURSE)

Sixth Edition. Revised and Enlarged. Price 75 cents.

"The text represents the substance of teaching which a freshman may fairly be expected to compass, and it is set forth with a clearness and directness and brevity so admirable as to make the volume seem almost the realization of that impossible short method of learning to write which has often been sought for, but never with a nearer approach to being found. . . . We do not hesitate to give unreserved commendation to this little book."—*The Nation*.

"Seldom has so much good common-sense been put within so brief a space."— *The Boston Herald*.
